

Pain Journal
(The Journal of the International Association for the Study of Pain)

No.	Title	Link
January 2015, Volume 156, Issue 1		
1	Molecular players of tumor–nerve interactions	download
2	Postoperative pain treatment after total hip arthroplasty: a systematic review	download
3	Preoperative widespread pain sensitization and chronic pain after hip and knee replacement: a cohort analysis	download
4	Results availability for analgesic device, complex regional pain syndrome, and post-stroke pain trials: comparing the RReADS, RReACT, and RReMiT databases	download
5	Intrathecal clonidine and adenosine: effects on pain and sensory processing in patients with chronic regional pain syndrome	download
6	Orthopedic surgery and bone fracture pain are both significantly attenuated by sustained blockade of nerve growth factor	download
7	Somatosensory phenotype is associated with thalamic metabolites and pain intensity after spinal cord injury	download
8	Pain modulation efficiency delays seeking medical help in patients with acute myocardial infarction	download
February 2015, Volume 156, Issue 2		
1	Peripheral and spinal circuits involved in mechanical allodynia	download
2	The Pain and Opioids IN Treatment study: characteristics of a cohort using opioids to manage chronic non-cancer pain	download
3	Deficient conditioned pain modulation after spinal cord injury correlates with clinical spontaneous pain measures	download
4	Tumor necrosis factor inhibitor therapy in ankylosing spondylitis: differential effects on pain and fatigue and brain correlates	download
5	Selective melatonin MT2 receptor ligands relieve neuropathic pain through modulation of brainstem descending antinociceptive pathways	download
6	Intrathecal reboxetine suppresses evoked and ongoing neuropathic pain behaviours by restoring spinal noradrenergic inhibitory tone	download

March 2015, Volume 156, Issue 3

1	Spinal cord stimulation analgesia: substantiating the mechanisms for neuropathic pain treatment	download
2	Spinal cord stimulation attenuates temporal summation in patients with neuropathic pain	download
3	Pattern of neuropathic pain induced by topical capsaicin application in healthy subjects	download
4	Pioglitazone rapidly reduces neuropathic pain through astrocyte and nongenomic PPAR γ mechanisms	download
5	Exercise therapy normalizes BDNF upregulation and glial hyperactivity in a mouse model of neuropathic pain	download
6	Heritability of pain catastrophizing and associations with experimental pain outcomes: a twin study	download
